Section B

Memory

Answer **all** questions in this section.

Two groups of participants took part in a memory experiment. The researcher read 20 words to the participants.

- Participants in **Group A** had to write down the words immediately after they had heard them.
- Participants in **Group B** had to write down the words after they had read a book for one minute.

The researcher noticed that:

- participants in **Group A** generally recalled words from the beginning and the end of the list
- participants in **Group B** generally recalled words from the beginning of the list only.

Section D

Psychopathology

Answer **all** questions in this section.

Dave wants to achieve what he thinks of as the perfect body and will often visit the gym up to three times a day. He finds it difficult to concentrate in the office as he is constantly thinking about his next workout. Even though his friends tell him he looks great, Dave worries his body shape is inferior compared to the other men at the gym.
